Customisation and Pricing:

At a time when organisations are trying to ensure every penny goes further, these products offer the chance to save on the costs associated with the development and production of an information item like this, both in terms of time and money. They were developed by early years and parenting practitioners, health professionals and authors and they are available for immediate production with your logo on.

The back of any standard sized wheel can be customised with your logo and contact details. Due to the nature of production, we recommend that a minimum of 2000 customised wheels are commissioned, in order for them to be really cost effective. They are then much cheaper than our individual ‘off-the-shelf’ selling price and can be below half the recommended retail price (RRP) of £8* each.

NEW - small customised orders

Should you wish to have small quantities of ‘customised’ wheels (perhaps to promote your children’s centre or setting) we now have the capacity to do these. Clearly we cannot do such small quantities as cheap as the unit prices for larger quantities, but we have developed a reasonable pricing model for quantities as low as 100 wheels.

Please note we can do any small quantity from 100 upwards.

Alternatively use a group logo to SHARE an order with other groups in your area and save money too

Delivery/timescale notice: *We will always try to meet your needs in every way we can, but ‘customised wheels’ can take between two and four working weeks to produce following the approval of your artwork. This is due to the complex manufacturing process, part of which is done manually to construct the wheels. In busy periods (such as Feb - April during the government financial year end) and for large quantities, production can take longer. Please therefore build in plenty of time in your schedule of needs to ensure we can meet your timescales. Sometimes we can get things done a bit quicker and we will always try, but the product is of a complex construction.*

Pricing notice: *As material prices are regularly changing, these prices are on our website or you can contact us for details*
